Combi-Cam Combination Cam Lock - **New 1-3/8" Cylinder Length**

Seattle, WA – A longer cylinder length, 1-3/8", now available for the popular Combi-Cam, combination cam lock. The Combi-Cam by FJM Security Products is the original combination cam lock on the market with a proven history of quality and reliability.

The Combi-Cam has up to 10,000 possible combinations available and pick resistant dials. The innovative design offers combination capabilities with all solid die-cast zinc components. The Combi-Cam lock is available in two finishes – chrome and black, and also available in the following cylinder lengths – 5/8", 7/8", and 1-1/8". The cam lock is ideal for locker applications, cabinets, drawers, storage, mailboxes, etc - anywhere that needs the flexibility of combination or multiple person access. It fits a maximum material thickness of 1-1/8" and retrofits any standard cam lock.

FJM Security Products (www.fjmsecurity.com) is the manufacturer of numerous innovative security products such as the Combi-Cam Cabinet Locks, Padlockable Cam Locks, Combi-Ratchet Combination Ratchet Locks, Combi-Bolt Combination Bolt Locks, SOBO High Security Padlocks, ShurLok and KeyGuard Key Storage, HitchSafe, and other keyed cabinet locks. FJM Security Products, a division of Frank J. Martin, has been in business since 1957. Check out www.tinyurl.com/fjm1786 for our new online product catalog.
