New Black Finish for the Combi-Cam Ultra Combination Cam Lock Offers Master Key Override & Code Retrieval Function

Seattle, WA – New black finish now available for the Combi-Cam Ultra. The Combi-Cam Ultra by FJM Security Products is the first combination cam lock with master key override and code retrievable capabilities. The Combi-Cam Ultra, offering master key override and code retrieval, is now available in both black and chrome finishes.

The Combi-Cam Ultra has 10,000 possible combinations available and master key access, allowing for dual access with both keys and combinations. The innovative design offers combination capabilities with innovative code retrieval function. Combi-Cam Ultra, made of heavy duty die cast metal, offers higher security, pick resistant keyways, with over 50,000 possible key codes. The cam lock can be installed vertically and horizontally and is ideal for locker applications, cabinets, drawers, storage, etc - anywhere that needs the flexibility of combination retrieval or multiple person access. Cam lock comes with easy-to-use knob with distinct, user-friendly open and close indicators, and no housing to rotate which can deface surface. The master key allows users to override the current combination, and retrieve the current combination. It fits a maximum material thickness of 1-1/8" and retrofits any standard cam lock. The Combi-Cam Ultra comes in three cylinder lengths (5/8", 7/8", and 1-1/8"), and two finishes (chrome and black).

FJM Security Products (www.fjmsecurity.com) is the manufacturer of numerous innovative security products such as the Combi-Cam Cabinet Locks, Padlockable Cam Locks, Combi-Ratchet Combination Ratchet Locks, Combi-Bolt Combination Bolt Locks, SOBO High Security Padlocks, ShurLok and KeyGuard Key Storage, HitchSafe, and other keyed cabinet locks. FJM Security Products, a division of Frank J. Martin, has been in business since 1957. Check out www.tinyurl.com/fjm1786 for our new online product catalog.
